

## A leader in Health IT & EHR

**600+**  
Hospitals

**1 Million+**  
Patients

**USA**  
Location

### ENGAGEMENT SNAPSHOT

**2001**  
Relationship Since

**1.5 million**  
Line of Codes Written

**50+**  
modules

**TOP 100**  
Health Informatics Leader

### CONNECTED HEALTHCARE TOUCHPOINTS

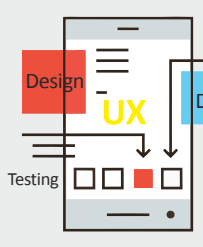

mHealth app suite

Patient Portal

Regulatory Compliance

Product Engineering

Build & Release Management

Upgradation & Integrations

### PRODUCT HIGHLIGHTS

**INTEGRATED HIS**

-   
Patient Administration
-   
Care Management
-   
Financials
-   
Departmental Modules

**COMPLIANCE**

-   
HIPAA
-   
Meaningful Use-Stage 1,2,3
-   
HL7
-   
FHIR

**SEGMENTS**

-   
Providers
-   
Specialty Nursing Homes
-   
Surgery Centers
-   
Individual Clinics

### KEY MODULES

  
Practice Management

  
Laboratory Information

  
Pharmacy

  
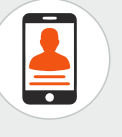

Homehealth

  
MU Dashboard

  
EHR/EMR

  
Radiology

  
Infection Control

  
Inventory Management

  
Accounting

### ENGAGEMENT JOURNEY

- » Re-engineering of legacy product
- » Requirements Definition
- » New Product Dev., Support & Implementation

**2001 to 2005**

- » New product Dev., Support & Implementation
- » Product Reengg.
- » Migration to new age tech

**2006 to 2008**

- » Re-engineering of Client server architecture
- » New product development
- » Support & Implementation
- » MU 1 Implementation

**2009 to 2012**

- » New product Dev, Support & Implementation
- » Third Party integrations
- » MU 2 and MU 3 Implementation
- » Patient Portal integrations
